WELCOME BIENVENIDOS

Our goal is to offer a unique and unforgettable experience of immersion in our culture, where learning and enjoyment come together.

We are always aiming to be at the forefront of the latest methodological trends applied in education, and our Schools are committed to academic excellence.

We celebrate tolerance and mutual respect, as well as the diversity of cultures.

we work with a clearly different model of pupil-teacher relationship, which is very much appreciated by our students and their families and is based on emotional rather than hierarchical criteria, with mutual respect as a fundamental value. This allows us to fulfil an essential first objective: that students are happy in the school and find it a motivating and pleasant environment which provides a foundation for all subsequent development of the educational model.

We have small classes to allow for a student-centered education and individualized learning.

Ana Larrumbide
Ceiam Director

Colegio Internacional
AUSIÀS MARCH

Valencia, Spain's third-largest city, is a wonderfully livable city with a subtropical Mediterranean climate; Valencia has a very mild winters and long warm summers.

The city of Valencia boasts beaches that you will be able to enjoy practically all year round and are located just a few minutes from the city center. At

Our International School of Ausiàs March, located in one of the most exclusive areas of Valencia, you will be able to study in an area of 20.000 square meters, with large outdoor sports facilities such as football pitches, basketball, tennis courts, private swimming pools & a solarium.

Our school is recognized by the Cervantes Institute and offers a variety of different extra-curricular activities during the whole year.

PRICE INCLUDES:

- Full board
- School fees
- Daily transport
- School Insurance
- Host Family accommodation
- Transfer from/to Valencia Airport

From 1.690€ per month

Sports Leadership

Social and Emotional Education

Madrid, the capital city of Spain, is a very charming city with a lot of personality. It is a lovely city to walk around, full of interesting squares, buildings, parks, shops, outdoor cafes, museums... The choices are endless.

Our School is located on a campus on the outskirts of Madrid in the very secure and residential area of La Moraleja. The Colegio Base has been ranked in the top 10 best Schools of Spain since 2002. Very much focused on sports, we became the World Champion Athletics School in 2015, which was celebrated in Wuhan, China.

Small classes allow for a student-centered education and individualized learning. Supportive, close-working relationships with the teachers as well as collaborative group efforts, promote the ongoing personal growth of the students at all levels: intellectual, creative, social, physical and emotional.

PRICE INCLUDES:

- Full board
- School fees
- Daily transport
- School Insurance
- Host Family accomodation
- Transfer from/to Madrid Airport

From 2.000€ per month

SPORTS

As the saying in English goes, “All work and no Play makes Jack a Dull boy”. It has been forgotten that academic learning and sports education complement each other. They resemble the two sides of the same coin. If sports education is carried out accompanied with the academic curriculum, the overall personality of the student is increased to quite an extent. The qualities of the leadership, sharing, team spirit and tolerance are learnt from sports.

Sports education not only teaches the students to maintain the physical stamina, but also the habit of obedience, discipline, the determination to win, willpower, etc. The power of reasoning, mental development, vocational specialisation comes from the academic education of the students. Therefore, sports education along with the academics result in the all-round development of the students.

LAS PALMAS DE GRAN
CANARIA
THE CANARY ISLANDS

PRICE INCLUDES:

Full board
School fees
Daily transport
School Insurance
Host Family
accommodation
Transfer from/to Las
Palmas Airport

From 1.690€ per month

Studying at The American School of Las Palmas in the Canary Islands will grant you the amazing opportunity of experiencing these paradisiac group of islands, enjoying a wonderful climate with a constant mild temperature throughout the year and splendid beaches of fine sand.

Our school was founded by a group of North American citizens who moved to the island in 1967 to work on a scientific mission with NASA.

We welcome students from all over the world to enrich our multicultural community. Our educational offer combines both the American and Spanish educational systems, allowing our students to enroll in a wide variety of universities: American, Spanish, European as well as others. ASLP is recognized by the Spanish government as a North American school whose program has been validated by the Ministry of Education, Culture and Sports, and is recognized by the United States.

Studying at our School whilst living with one of our host Spanish families will give you the best of both worlds

International Baccalaureate

The IB World Schools share a common philosophy: A commitment to rigorous, high quality international education which we consider to be important for our students.

Only schools authorised by the IB Organisation are able to offer its three academic programmes: the Primary Years Programme (PYP), the Middle Years Programme (MYP) and the Diploma Programme (DP) (in addition to the IB Certificate for career-oriented studies). The category of candidate school does not guarantee that the school will obtain the authorisation.

The time established by the IB for preparation to teach the Diploma Programme is two years, during which the centre must complete the training of the teachers who will impart the programme and adapt the curriculum and facilities to the established requirements. After this, the visit and subsequent authorisation take place as appropriate.

PROJECTS

The Choir of the Emotions is based on the deep conviction that choral singing, when deployed under certain parameters, is a powerful, playful tool that is accessible to anyone regardless of their musical talent, with a focus on the emotional, social, and creative development of the students.

3D Printing. This is a cross-sectional joint project that involves the subject areas of Mathematics and Plastic and Visual Arts Education that is completed by 3rd-year Secondary education students and consists in the development of the design and printing of a 3D logo.

ReflectArt is an educational resource that links visual arts with emotional, social, and creative education. It proposes work divided into three interrelated and consecutive stages organised around one-face-to-face or virtual-session in an exhibition hall addressing the specific objectives of the Botín Foundation's Responsible Education programme, integrated into our Social and Emotional Education project.

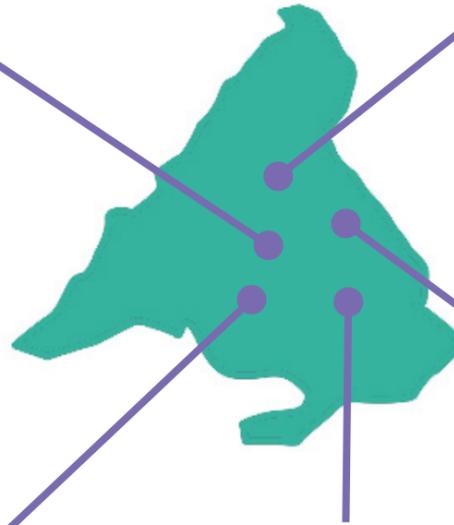

The Colegio Europeo Almazán is an independent school with no religious affiliation and which educates pupils from the ages of one until entrance to university. Its mission is to educate people who are free, respectful, responsible and capable of mapping out their own future, in a warm, positive and secure environment, to provide solid intellectual and academic preparation and to give pupils the necessary tools to cope in a society which is becoming more and more global.

Our teaching staff believes that the skills a person acquires throughout their education must include autonomy and responsibility. Autonomy is understood as an individual's preparedness to make the necessary decisions in our own project for personal development, and responsibility as the commitment to ourselves, to others, and to the world around us in order to successfully accomplish all our personal and academic goals.

MADRID

The Humanitas Bilingual School Torrejón, true to its tradition of innovation, wishes to promote an educational program where high academic standards, an excellent level of English, the use of computers and new technology as well as the importance of education in values, are embedded in all activities.

We offer our students a singular, pleasant group of buildings designed for the practice of teaching with open spaces, gardens and sports zones in an area of 20,000 square meters.

This school was the first bilingual English & Chinese school in the Community of Madrid.

The school mission is defined as open, humanist and confessional with the aim of forming future European citizens. Humanism is aiming to promote values in students, such as the love of culture and knowledge, as the maximum expression of civilization.

Colegio Arula, is an educational centre with a model based on innovative approaches and a focus on developing people within an emotional framework of trust and security to be healthy, free, critical, respectful, responsible, and able to design their own futures.
